In the name of Allah

Pharmaceutical Sciences Research Center
Shahid Beheshti University of Medical Sciences

March,10,2019

Dear Prof. Valentin Pavlov
Rector of BSMU

Thank you very much for your letter No. 1089-07 dated 27.02.2019 in regard to the participation of your delegates to Pharmacy Updates 2019. It was a great pleasure to have their presentation in our congress.

Prof. Guzel Ibragimova had a kind and effective input on the congress. She passed your documents to me and we had a very successful meeting on our future plans and cooperation. Your students had also a very active participation in the congress. Together with delegates from other participating countries, they have established a Regional Pharmacy Student's Forum (RPSF) to boost academic cooperation at student's level. I am very happy with the process and optimistic on the results.

Along with these issues, I had a specific focus meeting with three of university vice-chancellors (Research and Technology, Students and Culture, and International Affairs) on our plans for cooperation with BSMU. They have agreed that we have to get into this mission and as a result I have to submit an action plan to the university on this regard. I am planning to propose an invitation for you and your chancellors visiting our university (perhaps in late spring), short (about two weeks) students exchange program, guest professors from SBMU to BSMU teaching specific subjects, and two or three joint research projects with matched budget (fifty-fifty share of required budget from each university) for 2019, to start the action. Please let me know on the specific subjects you would rather our professors to teach, and project areas on which you think we might write grant proposals together.

Once again, I appreciate your enthusiasm on this regard and I am very much optimistic on the outcome of this collaboration.

Best Regards,

Farshad H. Shirazi
