

"I am a professional": a series of medical webinars by Sechenov University

Sechenov University, the co-organizer of the student Olympiad "I am a professional", supervising medical directions, held a series of webinars, pumping profile knowledge of participants.

In the 2018-19 season, medical areas of the Olympiad are represented by specialties "Medicine, Pediatrics", "Dentistry" and "Pharmacy".

This academic year one of the key innovations of the student Olympiad "I am a professional" is a program that includes a series of webinars for participants.

Webinars in the areas of "Medicine, Pediatrics", "Dentistry" and "Pharmacy", organized by Sechenov University, are aimed at the effective training of participants to the qualifying (part-time) stage. During the online events, the tutors of the directions told what tasks the participants will face and how to prepare, analyzed the demonstration tests, acquainted with the topics, levels and criteria of assessments, and answered the questions from the audience.

The cycle of webinars of "I am a Professional" Olympiad consisting of three series in each medical direction, aroused the maximum interest among the participants. Experts in the relevant topics presented each track: Elena Dudnik, tutor of the "General Medicine, Pediatrics" direction, Ivan Solopov, tutor of the "Stomatology" direction, and L. King, tutor of the "Pharmacy" direction.

Technical support of the broadcast was carried out by specialists of the center of medical information systems and technologies at Sechenov University.

Materials of all cycles that help participants to prepare effectively for the upcoming competitions are already available for viewing on the links:
