

Residency

## POSTGRADUATE TRAINING

Program	Duration	Tuition Fee
<b>Residency</b>	3 years	171 600 rubles

### General information

Postgraduate degree program

### Training process

During the residency, physicians practice medicine under the supervision of fully licensed physicians. Medical residency gives in-depth training within a specific branch of medicine.

Successful completion of residency training is a requirement to practice medicine.

Residency program students will have both hospital-based education (mostly) and some seminars in class as well. During the residency, physicians practice medicine under the supervision of fully licensed (attending) physicians. Clinical residency gives in-depth training within a specific branch of medicine.

Successful completion of residency training is a requirement to practice medicine.

### Language

The official medium of teaching is only Russian language

### Attire

During clinical classes, students should wear a white apron, medical cap and scrub ( "surgical" ) suite (recommended).

During laboratory classes, students should wear their own laboratory white coats to all sessions, as well as be presentable and dress neatly. Male students are recommended to wear a tie and female students are recommended to wear dress or skirt.

Casual attire and footwear such as jeans, T-shirts, sports shoe, sandals and so forth are not allowed.

## Code of Conduct

100% attendance.

Late arrival to class is not tolerated.

Residents are expected to observe the following code of conduct of behavior in public areas where teaching and learning take place, eg libraries, lecture theaters, rooms, laboratories, clinical skills laboratories and wards, etc:

1. No food and drink in the above-mentioned venues, except under special circumstances with the permission of the Faculty, the departments or the responsible units (eg during functions and meetings).
2. Mobile phones switched to silent mode during class.
3. No littering.
4. Proper demeanor during contact with patients and at other learning sessions (e.g. clean and tidy attire, no flip flops, slippers or vests, no chewing gum, etc).

Your, tutors, instructors, as well as Faculty and departmental staff may ask you to leave the venues if your behavior is found to be disturbing to teaching and learning.

**BSMU offers residency programs in a wide range of specialties as follows:**

31 08 31	Geriatrics	Гериатрия
31 08 32	Dermatovenereology	Дерматовенерология
31 08 35	Infectious diseases	Инфекционные болезни
31 08 36	Cardiology	Кардиология
31 08 37	Clinical pharmacology	Клиническая фармакология
31 08 39	Physical therapy and sports medicine	Лечебная физкультура и спортивная медицина
31 08 42	Neurology	Неврология
31 08 43	Nephrology	Нефрология

31 08 44	Occupational diseases	Профпатология
31 08 45	Pulmonology	Пульмонология
31 08 46	Rheumatology	Ревматология
31 08 47	Reflexotherapy	Рефлексотерапия
31 08 48	Emergency medicine	Скорая медицинская помощь
31 08 49	Therapy (general medicine)	Терапия
31 08 50	Physical therapy	Физиотерапия
31 08 51	Phthisiology	Фтизиатрия
31 08 53	Endocrinology	Эндокринология
31 08 54	General practitioner (family medicine)	Общая врачебная практика (семейная медицина)
31 08 55	Colorectal surgery	Колопроктология
31 08 56	Neurosurgery	Нейрохирургия
31 08 57	Oncology	Онкология
31 08 58	Otorhinolaryngology (ENT)	Оториноларингология
31 08 59	Ophthalmology	Офтальмология
31 08 61	Radiotherapy	Радиотерапия
31 08 63	Cardiovascular surgery	Сердечно-сосудистая хирургия
31 08 66	Traumatology and orthopedics	Травматология и ортопедия
31 08 67	Surgery	Хирургия
31 08 68	Urology	Урология
31 08 69	Maxillofacial surgery	Челюстно-лицевая хирургия
31 08 70	Endoscopy	Эндоскопия
31 08 71	Organization of health care and public health	Организация здравоохранения и общественное здоровье
31 08 72	Stomatology (dentistry) of the general practice	Стоматология общей практики
31 08 73	Therapeutic stomatology (dentistry)	Стоматология терапевтическая
31 08 74	Surgical dentistry (stomatology)	Стоматология хирургическая
31 08 75	Orthopedic stomatology	Стоматология ортопедическая

31 08 76	Children's stomatology	Стоматология детская
31 08 77	Orthodontics	Ортодонтия
31 08 01	Obstetrics and gynecology	Акушерство и гинекология
31 08 02	Anesthesiology and critical care	Анестезиология- реаниматология
31 08 03	Toxicology	Токсикология
31 08 04	Transfusiology	Трансфузиология
31 08 05	Clinical laboratory diagnostics	Клиническая лабораторная диагностика
31 08 07	Pathological anatomy	Патологическая анатомия
31 08 09	Radiology	Рентгенология
31 08 10	Forensic medical examination	Судебно-медицинская экспертиза
31 08 11	Ultrasonic diagnostics	Ультразвуковая диагностика
31 08 12	Functional diagnostics	Функциональная диагностика
31 08 13	Children's cardiology	Детская кардиология
31 08 16	Children's surgery	Детская хирургия
31 08 18	Neonatology	Неонатология
31 08 19	Pediatrics	Педиатрия
31 08 20	Psychiatry	Психиатрия
31 08 21	Psychiatry and narcology	Психиатрия - наркология
31 08 22	Psychotherapy	Психотерапия
31 08 24	Forensic-psychiatric examination	Судебно-психиатрическая экспертиза
31 08 26	Allergology and immunology	Аллергология и иммунология
31 08 28	Gastroenterology	Гастроэнтерология
31 08 29	Hematology	Гематология
32.08.01	Hygiene of children and teenagers	Гигиена детей и подростков
32.08.06	Municipal hygiene	Коммунальная гигиена
32.08.07	General hygiene	Общая гигиена
32.08.12	Epidemiology	Эпидемиология
32.08.14	Bacteriology	Бактериология
33.08.01	Pharmaceutical technology	Фармацевтическая технология

33.08.02	Management and economy of pharmacy	Управление и экономика фармации
33.08.03	Pharmaceutical chemistry and pharmakognoziya	Фармацевтическая химия и фармакогнозия
