Interdisciplinary Problem: Yesterday, Today, Tomorrow"**

**PLENARY SESSION
October 22, 2021**

**Place: State Institution of the Republic of Bashkortostan "Congress Hall Toratau",
Zaki Validi Str., 2, Ufa, Russia**

Co-chairs:

Maksim Zabelin – MD, PhD, Minister of Healthcare of the Republic Bashkortostan, Ufa, Russia

Valentin Pavlov – MD, PhD, Professor, Corresponding Member of the Russian Academy of Sciences, Rector of Bashkir State Medical University, Ufa, Russia

Yang Baofeng- MD, PhD, Co-chair of Association of Sino-Russian Medical Universities, Professor at Harbin Medical University, Academician of Chinese Academy of Engineering Sciences, Harbin, China

Vladimir Chulanov – MD, PhD, Professor, Chief Infectious Disease Expert of the Ministry for Healthcare of the Russian Federation, Head of Scientific and Counselling Clinical and Diagnostic Centre of the Central Scientific and Research Institution of Epidemiology, Moscow, Russia

Anna Kazak – Head of the Federal Service on Customers' Rights Protection and Human Well-Being Surveillance in the Republic of the Bashkortostan, Ufa, Russia

Azat Mukhametzyanov – PhD, Chief Epidemiologist of the Ministry of Healthcare of the Republic Bashkortostan, Chief Medical Officer of the Republican Hospital on Infectious Diseases, Head of the Epidemiology Department of Bashkir State Medical University, Ufa, Russia

Damir Valishin – MD, PhD, Professor, Chief Infectious Disease Specialist of the Ministry of Healthcare of the Republic Bashkortostan, Head of the Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia

Rafael Yapparov – MD, PhD, Chief Medical Officer of the Republican Center for Prevention and Control of AIDS and Infectious Diseases, Chief Expert on HIV infection of the Ministry of the Healthcare of the Russian Federation in the Volga Federal District, Ufa, Russia, Ufa, Russia

Time (Ufa)	Speaker	Title
09.00-09.05	Radiy Khabirov – Head of the Republic of Bashkortostan	Welcoming address
09.05-09.08	Maksim Zabelin – MD, PhD, Minister of Healthcare of the Republic Bashkortostan, Ufa, Russia	Welcoming address
09.08-09.12	Valentin Pavlov – MD, PhD, Professor, Corresponding Member of the Russian Academy of Sciences, Rector of Bashkir State Medical University, Ufa, Russia	Welcoming address
09.12- 09.15	Yang Baofeng - MD, PhD, Co-chair of Association of Sino-Russian Medical Universities, Professor at Harbin Medical University, Academician of Chinese Academy of Engineering Sciences, Harbin, China	Welcoming address
09.15-09.18	Anna Kazak – Head of the Federal Service on Customers' Rights Protection and Human Well-Being Surveillance in the Republic of the Bashkortostan, Ufa, Russia	Welcoming address
09.18-09.21	Tamara Aripova – MD, PhD, Academician of Academy of Sciences of the Republic Uzbekistan, Director of the Institution of Immunology and Human Genomics of the Academy of Sciences of Uzbekistan, Tashkent, Uzbekistan	Welcoming address
09.21-09.25	Shuhrat Teshayev - MD, PhD, Rector of the Bukhara State Medical Institute, Bukhara, Uzbekistan	Welcoming address
09.25-09.50	Vladimir Chulanov – PhD, Chief Infectious Disease Specialist of the Ministry for Healthcare of the Russian	Welcoming address Pandemics of the new coronavirus infection COVID-

	Federation, Head of Scientific and Counselling Clinical and Diagnostic Centre of the Central Scientific and Research Institution of Epidemiology, Professor, Moscow, Russia	19. The lessons of the second year for Russia
09.50-10.20	Nikolay Briko - PhD, Professor, Honored Scientist of the Russian Federation, Academician of RAS, Director of the Public Health Institute named after F.F. Erisman, Head of the Epidemiology and Evidence-based Medicine Department of the Sechenov University, Moscow, Russia	Committed to vaccination– a prerequisite for the successful implementation of an immunization strategy
10.20-10.40	Inga Prokopenko – PhD, Professor, Head of the Statistical Multiomics Department, Vice-Chancellor's Distinguished Chair of the University of Surrey, Guilford, UK	Immunoprophylaxis of COVID-19: for and against
10.40-11.00	Dmitriy Lioznov – PhD, Professor, Director of the Research Institute of Influenza named after A. M. Smorodintsev, Head of the Infectious Diseases Department of the Pavlov University, St. Petersburg, Russia	High-performance computing tools for complex analysis of multi-mix data and the development of personalized medicine
11.00-11.20	Wang Fang – MD, PhD, Professor, Dean of Basic medical college of Jilin University	The role of cytokine storm in COVID-19
10 minutes	Break	

SATELLITE SYMPOSIUM « THE ISSUES OF THE TREATMENT AND PREVENTION OF COVID-19»

Vladimir Chulanov - PhD, Professor, Chief Infectious Disease Specialist of the Ministry for Healthcare of the Russian Federation, Head of Scientific and Counselling Clinical and Diagnostic Centre of the Central Scientific and Research Institution of Epidemiology, Moscow, Russia

Rafael Yapparov – MD, PhD, Chief Medical Officer of the Republican Center for Prevention and Control of AIDS and Infectious Diseases, Chief Expert on HIV infection of the Ministry of the Healthcare of the Russian Federation in the Volga Federal District, Ufa, Russia, Ufa, Russia

Aleksandr Dmitriev – PhD, Chief Expert on Infectious Diseases of the Ministry of Healthcare of the Russian Federation in the Volga Federal District, Moscow, Russia

Time (Ufa)	Speaker	Title
13.00- 13.05	Rafael Yapparov – MD, PhD, Chief Medical Officer of the Republican Center for Prevention and Control of AIDS and Infectious Diseases, Chief Expert on HIV infection of the Ministry of the Healthcare	Welcoming address

	of the Russian Federation in the Volga Federal District, Ufa, Russia, Ufa, Russia	
13.05 - 13.25	Vladimir Chulanov – MD, PhD, Professor, Chief Infectious Disease Specialist of the Ministry for Healthcare of the Russian Federation, Head of Scientific and Counselling Clinical and Diagnostic Centre of the Central Scientific and Research Institution of Epidemiology, Moscow, Russia	Elimination of viral hepatitis C in the Russian Federation
13.25- 13.55	Mikhail Kostinov – PhD, Professor, Head of the Vaccine Prevention and Immunotherapy of Allergic Diseases Laboratory of the Federal State Budgetary Scientific Institution "Research Institute of Vaccines and Serums named after I.I. Mechnikov ", Moscow, Russia	Vaccination of patients with immunodeficiency conditions
13.55-14.25	Konstantin Zhdanov – MD, PhD, Professor, Colonel of Medical Service, Chief Infectious Disease Specialist of the Ministry of Defense of the Russian Federation, Corresponding Member of the RAS, Head of the Infectious Diseases Department at the S.M. Kirov Military Medical Academy, St. Petersburg, Russia	Short treatment regimens for CHC in real clinical practice
14.25- 14.55	Denis Gusev – PhD, Professor, Chief Expert on HIV infection of the Health Committee of St. Petersburg, St. Petersburg Russia	Overview of pangenotypic therapy for hepatitis C
14.55-15.30	Vasiliy Shahgildyan – PhD, Senior Scientific Researcher of the Specialized Scientific Research Laboratory for Epidemiology and Prevention of Aids “Central Scientific Research Institute” of Rospotrebnadzor, Moscow, Russia	New opportunities of ART for HIV-infected patients in Russia
15.30 - 15.50	Rafael Yapparov – MD, PhD, Chief Medical Officer of the Republican Center for Prevention and Control of AIDS and Infectious Diseases, Chief Expert on HIV infection of the Ministry of the Healthcare of the Russian Federation in the Volga Federal District, Ufa, Russia, Ufa, Russia	Experience of treating viral hepatitis with direct-acting drugs within the framework of the program "Development of Healthcare of the Republic of Bashkortostan"

15.50 - 16.10	Zulfiya Galieva – Deputy Head of the Chief Medical Officer of the Republican Center For Prevention And Control Of AIDS And Infectious Diseases, Ufa, Russia	Integrase inhibitors in the treatment of HIV infection
15 minutes	Break	
16.25 - 16.45	Dinara Nabiullina – Infectious Disease Physician, Medical Advisor HIV infection Prevention Department of the Moscow AIDS Prevention and Control Centre, Ufa, Russia	The use of assisted reproductive technologies in HIV-infected women
16.45 - 17.15	Aleksandr Dmitriev – PhD, Chief Expert on Infectious Diseases of the Ministry of Healthcare of the Russian Federation in the Volga Federal District, Moscow, Russia	HIV infection during the COVID-19
17.15 - 17.35	Izolina Biglova – PhD, Pediatrician of the Outpatient Observation and Treatment Department of the Republican Center For Prevention And Control Of AIDS And Infectious Diseases, Ufa, Russia	ART in children: from theory to practice
17.35 -18.05	Zulfiya Galieva – Deputy Head of the Chief Medical Officer of the Republican Center For Prevention And Control Of AIDS And Infectious Diseases, Ufa, Russia	Weight change in HIV-infected patients
18.05- 18.25	Roman Simonov – Infectious Disease Physician of the Outpatient Observation and Treatment Department of the Republican Center For Prevention And Control Of AIDS And Infectious Diseases, Ufa, Russia	Features of the course of helminthiasis in HIV-infected patients
18.25-18.45	Inna Bogorodskaya – Infectious Disease Physician of the Outpatient Observation and Treatment Department of the Republican Center For Prevention And Control Of AIDS And Infectious Diseases, Ufa, Russia	Prospects for the treatment of hepatitis B and D
18.45-18.55	DISCUSSION	

SECTION № 2. TOPICAL ISSUES OF THE INFECTIOUS DISEASES

Co-chairs:

Azat Mukhametzyanov – PhD, Chief Epidemiologist of the Ministry of Healthcare of the Republic Bashkortostan, Chief Medical Officer of the Republican Hospital on Infectious Diseases, Head of the Epidemiology Department of Bashkir State Medical University, Ufa, Russia

Damir Valishin - MD, PhD, Professor, Chief Infectious Disease Specialist of the Ministry of Healthcare of the Republic Bashkortostan, Head of the Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia

Guzel Khasanova - MD, PhD, Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia

Time (Ufa)	Speaker	Title
13.00 - 13.20	Aleksandr Dmitriev – PhD, Chief Expert on Infectious Diseases of the Ministry of Healthcare of the Russian Federation in the Volga Federal District, Moscow, Russia	Prospects for the development of infectious disease services in the Volga Federal District
13.20 - 13.35	Azat Mukhametzyanov – PhD, Chief Epidemiologist of the Ministry of Healthcare of the Republic Bashkortostan, Chief Medical Officer of the Republican Hospital on Infectious Diseases, Head of the Epidemiology Department of Bashkir State Medical University, Ufa, Russia	The experience of organizing anti-epidemic measures in Covid Hospitals of the Republic of Bashkortostan on the example of Republican Hospital for Infectious Diseases (Ufa)
13.35- 14.00	Damir Valishin - MD, PhD, Professor, Chief Infectious Disease Specialist of the Ministry of Healthcare of the Republic Bashkortostan, Head of the Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia	Pathogenetic therapy of COVID-19 based on the XII version of the provisional clinical guidelines
14.00- 14.30	Guzel Khasanova - MD, PhD, Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia	Acute respiratory viral infections and COVID-19: topical issues at the present stage
14.30-14.45	Guzel Mavzyutova - PhD, Professor at the Intermediate Level Therapy Department of Bashkir State Medical University, Ufa, Russia	Immunomodulatory pathogenetic therapy of infectious inflammation of the lower respiratory tract

15.45 - 16.10	<p>Aygul Galieva – PhD, Associate Professor, Deputy Head of the Chief Medical Officer Of Republican Clinical and Infectious Diseases Hospital of Ministry of Healthcare of the Republic of Bashkortostan, Ufa, Russia</p> <p>Azat Mukhametzyanov – PhD, Chief Epidemiologist of the Ministry of Healthcare of the Republic Bashkortostan, Chief Medical Officer of the Republican Hospital on Infectious Diseases, Head of the Epidemiology Department of Bashkir State Medical University, Ufa, Russia</p>	Features of the course of COVID-19 in children
15 minutes	Break	
16.25 - 16.50	<p>Damir Valishin - MD, PhD, Professor, Chief Infectious Disease Specialist of the Ministry of Healthcare of the Republic Bashkortostan, Head of the Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia</p>	Acute respiratory viral infections: problems and solutions
16.50 - 17.20	<p>Guzel Khasanova - MD, PhD, Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia</p>	Postcovid syndrome: mechanisms, clinical manifestations, treatment options
17.20 - 17.45	<p>Aygul Galieva – PhD, Associate Professor, Deputy Head of the Chief Medical Officer of Republican Clinical and Infectious Diseases Hospital of Ministry of Healthcare of the Republic of Bashkortostan, Ufa, Russia</p> <p>Azat Mukhametzyanov – PhD, Chief Epidemiologist of the Ministry of Healthcare of the Republic Bashkortostan, Chief Medical Officer of the Republican Hospital on Infectious Diseases, Head of the Epidemiology Department of Bashkir State Medical University, Ufa, Russia</p>	Experience of antiviral therapy for chronic hepatitis C in the Republic of Bashkortostan
17.45 -18.05	<p>Nadezhda Abrashina – Assistant at the Infectious Diseases of Bashkir State Medical University Ufa, Russia</p>	Clinical and laboratory features of a new coronavirus infection COVID-19 in

	Rasima Murzabaeva - MD, PhD, Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia	children based on the materials of the Republican Hospital for Infectious Diseases (Ufa)
18.05- 18.20	Aygul Galieva – PhD, Associate Professor, Deputy Head of the Chief Medical Officer of Republican Clinical and Infectious Diseases Hospital of Ministry of Healthcare of the Republic of Bashkortostan, Ufa, Russia	X-ray and laboratory signs of lung damage in hemorrhagic fever with renal syndrome
18.20-18.45	Nuriya Kuvatova - PhD, Associate Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia	Clinical and epidemiological diagnosis and treatment of actual viral exanthemic diseases in children
18.45-18.55	DISCUSSION	

October 23, 2021

SECTION № 3. COVID-19: PANDEMIC OF THE 21ST CENTURY

https://bashgmu.ru/science_and_innovation/konferentsii/mezhdunarodnaya-nauchno-prakticheskaya-konferentsiya-infektsionnye-bolezni-kak-mezhdistsiplinarnaya/

Co-chairs:

Galina Shiryaeva - MD, PhD, Professor at Pediatrics Department of

Liana Shaikhullina - PhD, Associate Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia, Ufa, Russia

Lenara Sharifullina - PhD, Deputy Chief Medical Officer at Clinical Diagnostic Center for Infectious Diseases, Sterlitamak, Russia

Time (Ufa)	Speaker	Title
09.00-09.15	Lenara Sharifullina - PhD, Deputy Chief Medical Officer at Clinical Diagnostic Center for Infectious Diseases, Sterlitamak, Russia	Organization of the provision of medical care to patients with a new coronavirus infection at the base of Clinical Diagnostic Center for Infectious Diseases (Sterlitamak)
09.15-09.45	Denis Usenko - MD, PhD, Leading Scientific Worker of Infectious Pathology Clinical Department, Professor of Research Institute of Epidemiology, Moscow, Russia	Role of the respiratory and gastrointestinal microbiota in COVID-19
09.45-10.00	Radik Gatiatullin - MD, PhD, Professor at	Fever and Antipyretic

	Hospital Pediatrics of Bashkir State Medical University, Ufa, Russia	Therapy in Pediatrics
10.00-10.15	Galina Shiryaeva - MD, PhD, Professor at Pediatrics of Bashkir State Medical University, Ufa, Russia	Vaccination of children with impaired health during a pandemic
10.15–10.45	Elena Melekhina - PhD, Associate Professor, Senior Scientific Worker of Infectious Pathology Clinical Department of Research Institute of Epidemiology, Moscow, Russia	Multisystem inflammatory syndrome associated with SARS-CoV2 in Children: complications or manifestation of COVID-19?
10.45-11.00	Tagir Nurislamov – Head of the First Department of the Clinical Diagnostic Center for Infectious Diseases, Sterlitamak, Russia	Features of the course and factors of unfavorable prognosis of coronavirus infection in obese patients
11.00-11.30	Denis Usenko - MD, PhD, Leading Scientific Worker of Infectious Pathology Clinical Department, Professor of Research Institute of Epidemiology, Moscow, Russia	Effective ARI therapy and microbiome preservation in children - how to achieve balance?
11.30-11.45	Irina Kravchenko - MD, PhD, Professor at the Infectious Diseases Department of Kazan State Medical University, Kazan, Russia	Hyperinflammation in COVID-19: Treatment Technologies
11.45-11.55	Normurod Zekriyev – Head of the Infectious Diseases Department of the Zangiata Hospital, Tashkent, Uzbekistan	Organization of medical care of COVID-19 patients in the conditions of the Zangiata Hospital -2 (Tashkent)
11.55-12.05	Sevara Salikhova - Head of the Infectious Diseases Department of the Zangiata the Second Hospital, Tashkent, Uzbekistan	Clinical and epidemiological aspects of COVID-19 in Uzbekistan
12.05-12.15	Begali Khakimov - Head of the Resuscitation Department of the Zangiata the Second Hospital, Tashkent, Uzbekistan	The results of the treatment of psychoemotional disorders in patients with pneumonia COVID-19 in the conditions of the Resuscitation Department
12.15-12.30	Gulshat Manabaeva - PhD, Associate Professor, Head of the Perinatology Department of Medical University of Semey, Semey, Kazakhstan Saule Maukaeva – MD, PhD, Associate	COVID-19 in pregnant women

	<p>Professor, Head of the Infectious and Immunology Department of Semey Medical University, Semey, Kazakhstan</p> <p>Yerbol Smail- MD, PhD, Associate Professor at the Infectious and Immunology Department of Semey Medical University, Semey, Kazakhstan</p> <p>Prokopenko Galina – Rezydent at the Infectious Diseases Department Semey Medical University, Semey, Kazakhstan</p>	
12.30-13.00	Break	

October 23, 2021

SECTION № 4. INFECTIOUS DISEASES AS AN INTERDISCIPLINARY PROBLEM

https://bashgmu.ru/science_and_innovation/konferentsii/mezhdunarodnaya-nauchno-prakticheskaya-konferentsiya-infektsionnye-bolezni-kak-mezhdistsiplinarnaya/

Co-chairs:

Tatiana Prosvirkina – PhD, Associate Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia

Nuriya Kuvatova - PhD, Associate Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia

Sergey Larshutin - PhD, Associate Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia

Time (Ufa)	Speaker	Title
13.00-13.15	Guoqing Wang- Professor, Jilin University, Changchun, China	Computational Biology Applications in the Diagnosis and Treatment of COVID-19
13.15-13.30	Jinlan Jiang: MD, PHD, Professor, Director of the Scientific Research Center of China- Japan Union Hospital of Jilin University, Director of the Laboratory of Molecular Biology of the State Administration of Traditional Chinese Medicine, Changchun, China	Mesenchymal stem cell-derived magnetic exosomes for targeting and treatment of pulmonary fibrosis, a sequelae of COVID-19
13.30-13.45	Gulzhan Abuova – MD, PhD, Professor, Head of the Infectious Diseases and Dermatovenereology Department of South Kazakhstan Medical Academy, Shymkent, Kazakhstan	Achievements and prospects of studying the Congo- Crimean hemorrhagic fever in Kazakhstan
13.45-14.00	Adolat Ismailova - MD, PhD, Professor,	The problem of primary

	Head of the Fundamental Immunology Laboratory of Immunology and Genomics Institute of Academy of Science of the Republic Uzbekistan, Tashkent, Uzbekistan	immunodeficiencies in Uzbekistan
14.00-14.15	Dilbar Urunova- MD, PhD, Associate Professor at Tashkent Institution of Advanced Medical Education, Tashkent, Uzbekistan Zulfia Akhmedzhanova- MD, PhD, Leading Scientific Worker of the Institution of Immunology and Human Genomics of the Academy of Sciences of Uzbekistan, Tashkent, Uzbekistan	Tuberculosis as a comorbid condition in HIV infection
14.15-14.30	Elvira Manapova - MD, PhD, Associate Professor at Infectious Diseases of Kazan State Medical University, Kazan, Russia Vildan Fazylov- MD, PhD, Professor at Outpatient Therapy and General Medical Practice Department of Kazan State Medical University, Kazan, Russia Airat Beshimov – PhD, Deputy Chief Medical Officer at the Republican AIDS Prevention and Control, Kazan, Russia Vadim Akifiev - Infectious Disease Physician at the Republican AIDS Prevention and Control, Kazan, Russia	HIV infection and pregnancy: clinical diagnostic criteria and prevention of intrauterine infection
14.30-14.45	Alfiya Oleynik – PhD, Assistant at Fundamental Medicine and Biology Institute of the Kazan Federal University, Kazan, Russia Airat Beshimov – PhD, Deputy Chief Medical Officer at the Republican AIDS Prevention and Control, Kazan, Russia Vildan Fazylov- MD, PhD, Professor at Outpatient Therapy and General Medical Practice Department of Kazan State Medical University, Kazan, Russia	Features of the course of COVID-19 in patients with HIV infection
14.45-15.00	Farida Berdalieva- MD, PHD, Associate Professor at the Infectious Diseases Department of South Kazakhstan Medical Academy, Shymkent, Kazakhstan	Issues of differential diagnosis of Congo-Crimean hemorrhagic fever and COVID-19 in the era of a pandemic
15.00-15.15	Daulet Aliev – Senior Lecturer at Infectious Diseases Department of South Kazakhstan Medical Academy, Shymkent, Kazakhstan	Epidemiology of Crimean-Congo Hemorrhagic Fever at the present stage, possibilities

		of digitalization of surveillance
15.15-15.30	Eremeeva Zhanna - PhD, Assistant at the Epidemiology Department of Kazan State Medical University, Kazan, Russia Ramil Turaev - PhD, Chief Medical Officer at Republican Blood Center of the Ministry of Healthcare of the Republican of Tatarstan Vildan Fazylov - MD, PhD, Professor at Outpatient Therapy and General Medical Practice Department of Kazan State Medical University, Kazan, Russia	Preventive aspects of chronic HBV infection during blood transfusions
15.00-15.15	Mehriniso Mirzoeva - PhD, Associate Professor, Head of the Infectious Diseases and Epidemiology Department, Bukhara, Uzbekistan	Clinical and epidemiological features of common parasitic diseases in the Republic of Uzbekistan
15.30-15.45	Mehriniso Mirzoeva - PhD, Associate Professor, Head of the Infectious Diseases and Epidemiology Department, Bukhara, Uzbekistan	Clinical and epidemiological features of common parasitic diseases in the Republic of Uzbekistan
15.45-16.00	DISCUSSION	

October 23, 2021

SECTION № 5. INFECTIOUS DISEASES AS AN INTERDISCIPLINARY PROBLEM

ACADEMIC REPORTS OF YOUNG SCIENTISTS

https://bashgmu.ru/science_and_innovation/konferentsii/mezhdunarodnaya-nauchno-prakticheskaya-konferentsiya-infektsionnye-bolezni-kak-mezhdistsiplinarnaya/

Co-chairs:

Lira Murzagalieva – PhD, Associate Professor at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia

Nadezhda Abrashina – Assistant at Infectious Diseases Department of Bashkir State Medical University, Ufa, Russia

Time (Ufa)	Speaker	Title
13.00-13.20	Yiran Ben – Master, Resident at the Infectious Department of the First Affiliated Hospital of Harbin Medical University, Harbin, China	Treatment trend of chronic hepatitis B
13.20-16.30	Tatiana Polukchi - Assistant at the Infectious Diseases and	Features of cognitive impairment in patients with

	Dermatovenereology Department of South Kazakhstan Medical Academy, Shymkent, Kazakhstan	chronic viral hepatitis B, C and D
13.30-13.40	Albert Shakirov, Dinar Khasanov, Karina Nabieva – students of Bashkir State Medical University, Ufa, Russia	Modern aspects of multisystem inflammatory syndrome in children associated with the new coronavirus infection COVID-19
13.40-13.50	Zilola Keldiyorova – Assistant at the Infectious Diseases Department of Bukhara State Medical University, Bukhara, Uzbekistan	Clinical and epidemiological features of infectious mononucleosis
13.50-14.00	Dana Sadihova - Assistant at the Infectious Diseases and Dermatovenereology Department of South Kazakhstan Medical Academy, Shymkent, Kazakhstan	A case of Congo-Crimean hemorrhagic fever in a patient with COVID-19
14.00-14.10	Amin Razhabov - Assistant at the Infectious Diseases and Epidemiology Department of Bukhara State Medical University, Bukhara, Uzbekistan	Cytokine status in diseases of the upper respiratory tract in COVID-19
14.10-14.20	Nargiza Khamidova - Assistant at the Infectious Diseases and Epidemiology Department of Bukhara State Medical University, Bukhara, Uzbekistan	Clinical course of heminlipidosis in children
14.20-14.30	Fazliddin Gaibullaev - Assistant at the Infectious Diseases and Epidemiology Department of Bukhara State Medical University, Bukhara, Uzbekistan	Clinical features of visceral leishmaniasis in endemic regions of the Republic of Uzbekistan
14.30-14.40	Aliya Khasanova - physician, City Clinical Hospital № 13, Ufa, Russia	Results of studies on the role of microRNA in the pathogenesis of hemorrhagic fever with renal syndrome
14.40-14.50	Gulruh Ostonova - Assistant at the Infectious Diseases and Epidemiology Department of Bukhara State Medical University, Bukhara, Uzbekistan	Clinical and epidemiological features of yersiniosis
14.50-15.00	DISCUSSION
